

Section 508

36 CFR Part 1194.24 Video and Multimedia

Checklist

Video or Multimedia Title/Product Name: _____

Tester Name: _____ Phone: (____) _____

Tester Signature _____ Date: _____

Fully Compliant (FC): All instances fully meet the standard as defined below

Non-Compliant (NC): All instances did *not* meet the standard

Partially Compliant (PC): Partially met and requires further explanation

Not Applicable (N/A): Standard is not applicable to this application

Not Tested (NT): Standard was not tested

Requirement Guidelines: Compliance is defined as meeting the requirements set forth in the Section 508 Subpart B - Technical Standards, 1194.24 [Video and Multimedia Products](#), Subpart C - [Functional Performance Criteria](#) and Subpart D - [Information, Documentation and Support](#). (This Guideline is based on the assumption that your EIT product or service is limited to Software Applications and Operating Systems; however, many EIT products and services are hybrids, e.g., software is bundled with hardware, so that more than one Technical Standard applies. In these cases, be sure that your EIT product or service meets the requirements as set forth in all applicable standards.)

Any item not rated as fully compliant needs an explanation *in detail* as to why the standard was not met. Enter the ID number and an explanation in the space provided at the end of the checklist.

ID	1194.24 Standard Criteria & Checklist Questions	FC	PC	NC	N/A	N/T
1 (a)	Television displays (a) All analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals. As soon as practicable, but not later than July 1, 2002, widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals.					
a.1	Are all analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcasts, cable, videotape, and DVD signals?					
a.2	Are widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals?
