- More than 10k average daily job postings
- Nearly 3M average daily searches
- More than 9.6M average daily page views

Why Agile?

Agile Values

Individuals and interactions over processes and tools

Working software over comprehensive documentation

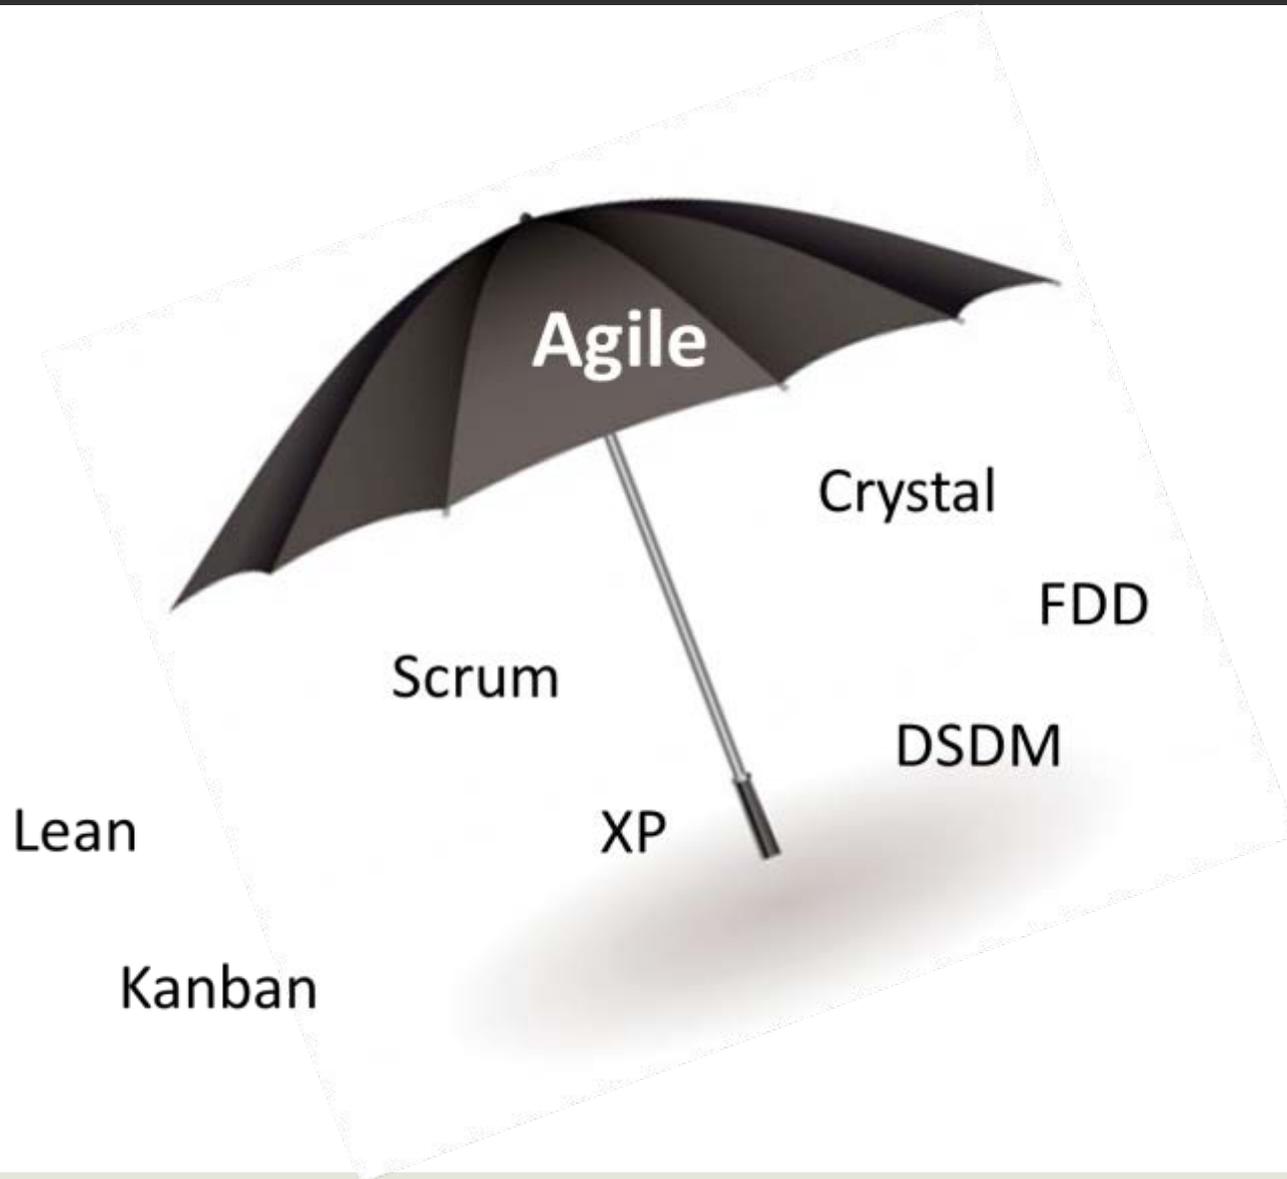

Customer collaboration over contract negotiation

Responding to change over following a plan

Agile Principles

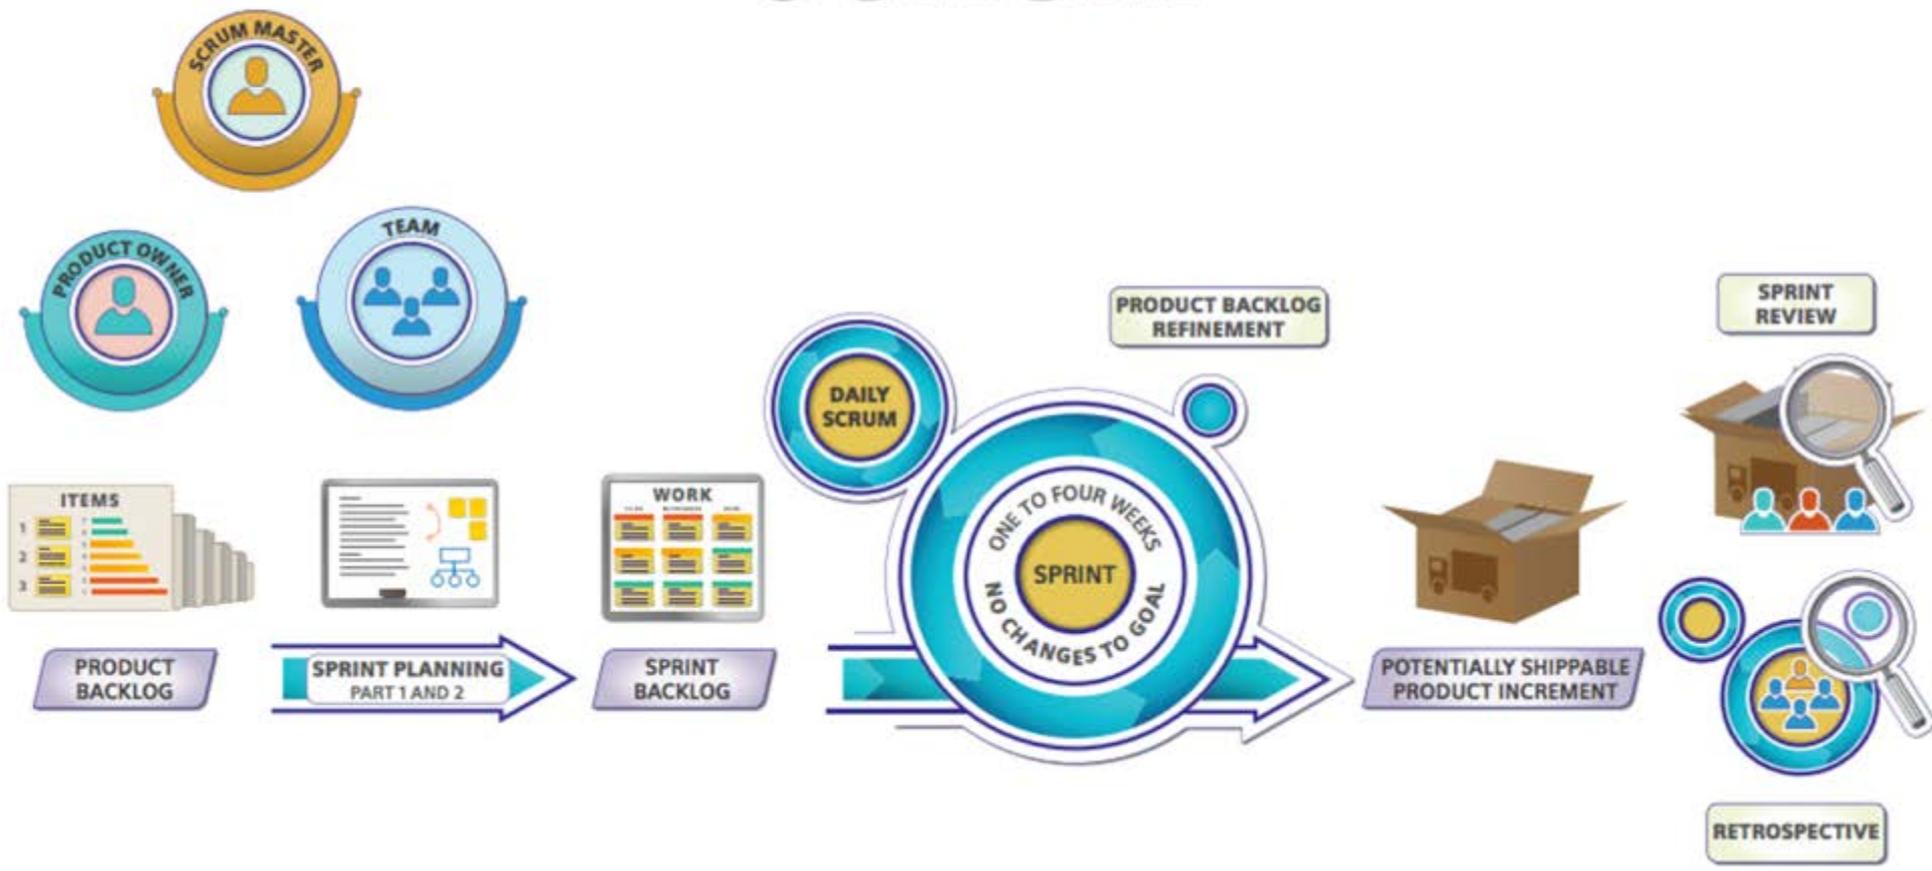

1. **Satisfy** the customer **through** early and continuous delivery
2. **Welcome changing** requirements
3. **Deliver frequently**, preferring a shorter timescale
4. Business & technical **work together daily**
5. Pick the right **team and trust** them
6. **Face-to-face** Communication
7. **Working software** is the **primary measure** of progress
8. **Sustainable** pace
9. Technical **excellence** and good design **enhances agility**
10. **Simplicity**, maximizing the amount of work not done
11. Best **results** emerge **from self-organizing** teams
12. The team **regularly reflects** to become more effective

Agile Methodologies

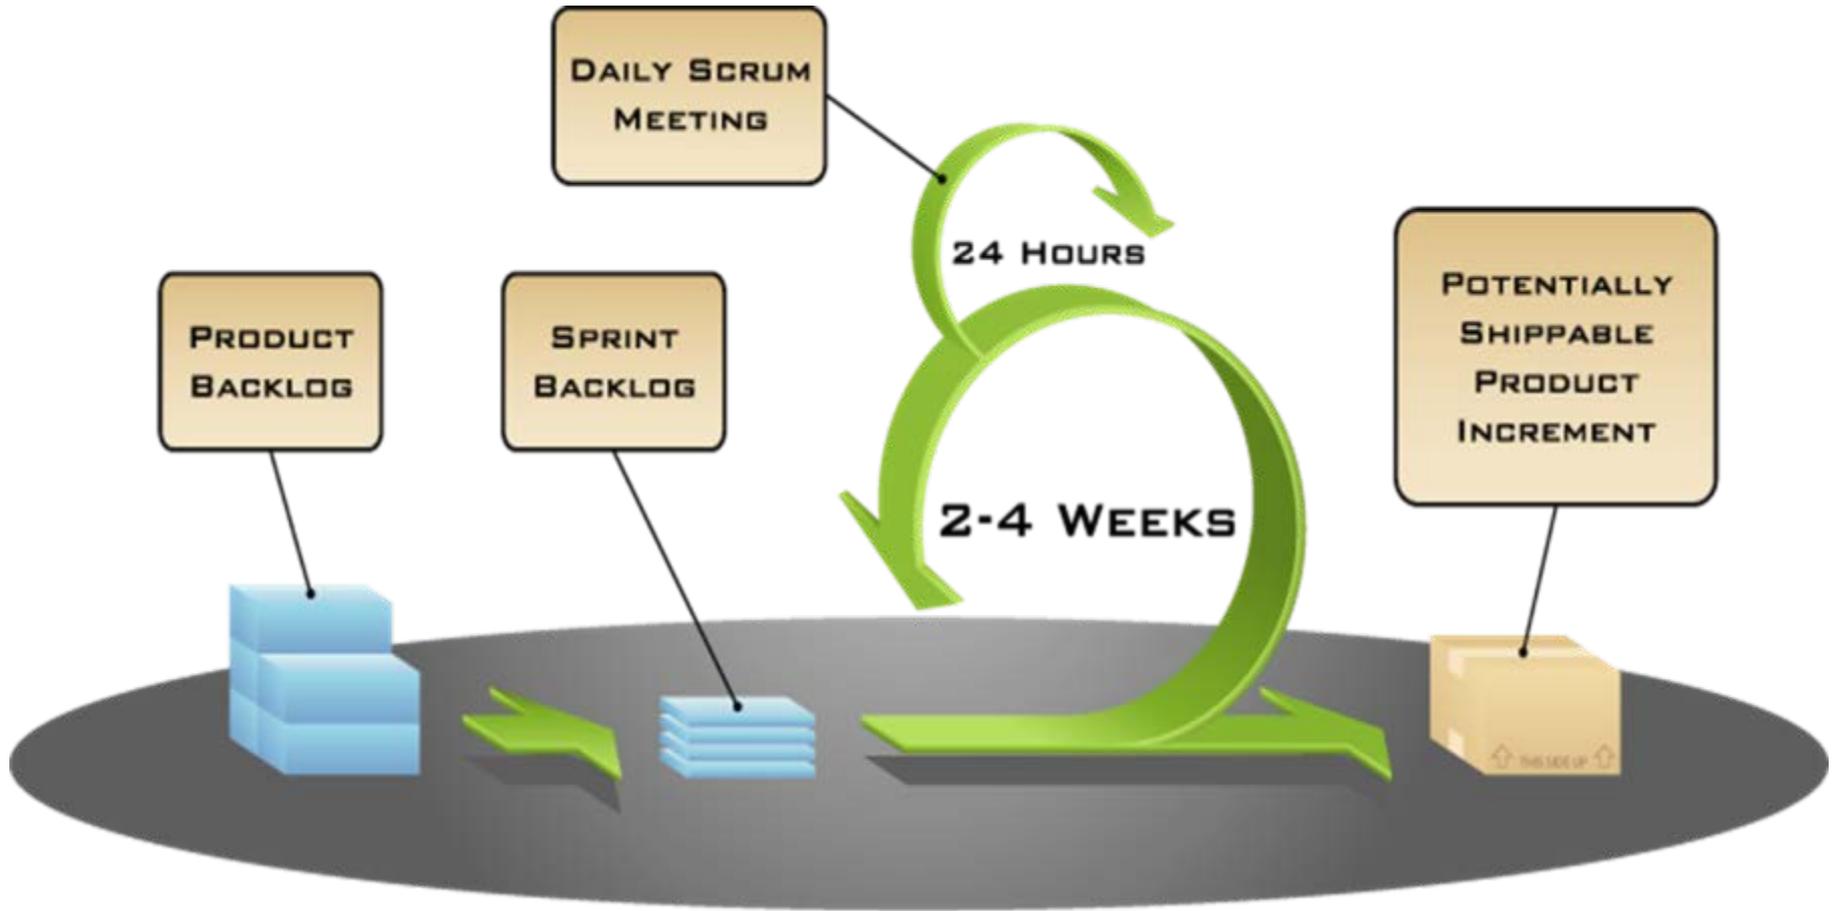

Scrum Framework

SCRUM

Obstacles & Lessons Learned

Know the Terminology

Requirements

Distance

Security/508 Compliance

Scope Creep

Good ScrumMaster

Final Words

Agile Principle #12:

At regular intervals, the team reflects on how to become more effective, then tunes and adjusts its behavior accordingly.
